

Biopsy Care Sheet

Clean area with soap and water daily

Apply antibiotic ointment and bandaid daily until healed or until sutures fall out or is removed.

Follow up:

- Suture removal in _____ days.
- Further treatment to be discussed after pathology results reviewed.

We will notify you of the pathology results, as soon as they are received. This generally takes no longer than 2 weeks. If you have not heard from us by then, please call (no results are left on voice mail unless requested by patient).

Call Office [#206-215-3300] if area increases in pain, redness or drainage after one week.
