

Open Wound Care Instructions

- DO NOT USE hydrogen peroxide on open, un-stitched wounds.
- 48 hours after surgery you may wash the wound with soap and water.
- Apply ointment and bandage to the area daily.
- Continue care until wound is healed with fresh pink skin and scab will no longer form.

This wound may take several weeks to heal. If you have questions do not hesitate to contact a nurse at 206-215-3300.
